

What if...

my artwork had the power to change your life?

### HEALING ART

*I am fascinated by the artificially maintained facades, the nutshell with which we protect ourselves from the outside world with its constantly growing demands and stimuli. My aim is to transform this cocoon that protects us back into its soft, inner origin with my images and their effect in the space, so that blockades and despair can find their way, so that it crumbles and what has been hidden for a long time comes to the surface again and HEALS.*

### ABOUT ME

*Born on 05.04.1963 in the Bergisches Land in Wuppertal, Germany, Essen-Werden at Lake Baldeney is now my creative centre.*

*Living and working in a quarry stone house built in 1892, which shares its experiences with me and inspires me to my works in connection with nature and puts its inner peace protectively around my shoulders.*

*In my sun-flooded conservatory, designed by myself, lies my studio, my Cosy Gallery, my Artistic Power Room.*
