PREMIUM ENTRANCE RUG

Die luxury version - Durability at the highest level

kramis-teppich.ch

The premium entrance rug from KRAMIS

The Premium entrance rug from KRAMIS is made of pure virgin wool and guarantees durability at the highest level. Whether residential or commercial, the rug is used everywhere where a wow effect must be radiated. Here, the first impression, as well as the enthusiasm plays an important role.

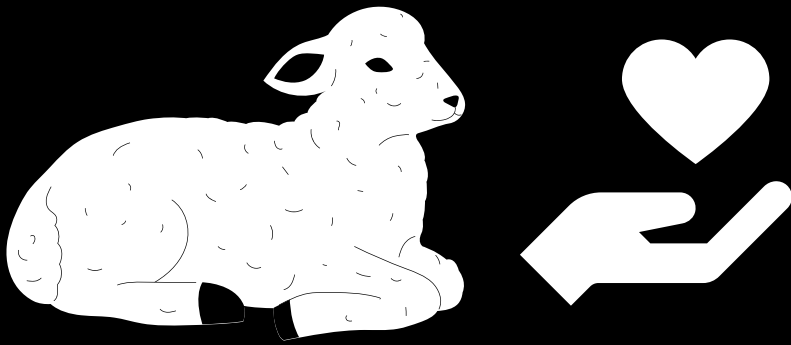

In addition, the high walking comfort and durability offers an ideal solution for exclusive hotels, restaurants, public facilities and other entrance areas that need to represent.

The rugs are 100% SWISS MADE and are produced by hand tufting technique. Thanks to this craft it is possible to produce rugs in any size, shape, color and with any design - exactly tailored to your wishes and rooms.

The high pile weight of 3,200 kg/m² means that the rug is very durable and can absorb as much moisture and dirt as possible. When you walk on it, it cleans and dries your shoes as if you were using a rag.

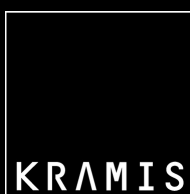

If the room is too dry, the moisture is automatically released and the cycle closes. In addition, the room sound is strongly absorbed and thus offers an optimal improvement of the room acoustics.

As an easy-care side effect, dirt is automatically transported to the surface so that it can be cleaned effortlessly with a vacuum cleaner.

The advantages of virgin wool

- Virgin wool is breathable. It absorbs moisture and releases it in the form of water vapor. This ensures a pleasant indoor climate and makes the premium entrance rug very durable.
- In winter, virgin wool warms, in summer it cools. This temperature balance was originally intended for the well-being of the sheep, but it also has a regulating effect in the room. The Premium entrance rug thus provides a warmer indoor climate in winter and a cooler one in summer.
- The wool grease repels water and dirt in a natural way. The Premium entrance rug therefore has a natural standard protection against stains and is easy to clean.
- Virgin wool neutralizes odors and provides a pleasant room scent.
- Virgin wool rugs are permanently color-fast.
- Virgin wool rugs contribute to fire protection, as virgin wool is flame retardant.
